**ADOPTED**  
Committee's Report.

Many important changes were made.

No Recommendation as to Prof. Thomas.

Misses Mary Baird and Anna Thomas Reinstated.

Resignations of Two Teachers Are Requested.

The report of the Investigating Committee of the Board of Education was adopted by a unanimous vote Tuesday night.

Previous to the vote a number of radical changes were made. Perhaps the most important was a clause which was inserted, asking for the resignation of Miss Frances Brown, principal of the Henry school, and Miss Julia Cochrane of the High school and the re-instatement of Misses Mary Baird and Anna Thomas, of the High school. Later in the evening the salary of Miss Thomas was increased \$50 per year.

Another change made in the report was the cutting out of the clause reading: "We do not recommend any present action upon the matter of superintendent."

This leaves the report of the committee as a finding of facts, without any recommendation as to the action that should be taken by the Board of Education is the court.

The Board can now take action if it so desires, in reference to the superintendent without conflicting with the committee's report.

**Committee of the Whole.**  
The Board first met as a committee of the whole and at the suggestion of Mr. E. E. Otis took up the report section by section. Most all of the amendments were made by Mr. Otis.

**Amendments.**  
The first amendment was made in section four, the second paragraph, which refers to teachers being arrayed against each other in the High school in factions, known as the old and the new teachers. The amendment stated that the friction had been carried to such an extent that it interfered directly with the school work and recommended that Miss Julia Cochrane be asked to hand in her resignation. The amendment was unanimously adopted.

An amendment was made to section six, which states that the course of study in the grade schools should be more carefully followed. The amendment stated the same should be done in the High school and less changes made. Carried.

**Stricken Out.**  
The following paragraph in section seven was stricken out:

"We find that there has not been a sufficient nor a frequent enough visitation of our schools by our superintendent; which, no doubt, has given rise to a feeling that injustice has been done some of the teachers dropped from their positions, who felt that as clear and full an idea of their abilities and methods of managing their respective schools was not known to the superintendent."

**Minor Change.**  
Mr. Otis by an amendment changed the phraseology of section 12 and it passed by a vote of 11 to 1. Col. Gibbons voting in the negative.

This section reads: "We also find that there is an opinion quite current in this city to the effect that the Superintendent and Board of Education have discriminated against teachers and applicants for the position of teacher, who reside or were educated in the city of Akron, and have favored those applicants and teachers who reside without said city, and have been educated in the Normal schools of other states; but we believe that there is no substantial ground for such opinion or cause for such complaint; and we find that whatever circumstances might look towards a just cause for grievance in that respect are the result of a honest and conscientious effort on the part of the Board to lift up the schools of this city and place
